DETAILED ACTION

1. Claims 19 and 21-27 are pending in this communication filed 02/09/06 entered as Response to Ex Parte Quayle Action and Request for Extension of Time.
2. The claim objection to claim 19 is hereby withdrawn.
3. The Drawings filed 02/09/06 have been reviewed and accepted. The drawing objection for figures 1-4 is hereby withdrawn.
4. **This application is in condition for allowance except for the following remaining formal matters:**

Abstract

5. The abstract is objected to because only a marked up copy of the abstract is found in the file. Correction is required. See MPEP § 608.01(b).

Specification

6. A substitute specification and claims is required pursuant to 37 CFR 1.125(a) because the Specification has numerous amendments to the Specification.

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying

clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claim 19 recites the limitation "check in" in line 5 and "checked in" in line 7.

There is insufficient antecedent basis for these limitations in the claim. The claim limitations do not contain another "check in" or another "checked in" in the body of the claim. This is the reason for the insufficient antecedent basis in the claim. Correction is respectfully requested.

Conclusion

9. Claim 19 is rejected for the reason stated above. Claims 21-27 have been objected to because of their dependency on a rejected base claim.

Claims 19 and 21-27 will be allowed once these issues are resolved.
